📍 Calgary, AB T2R 0S2

Driven by a constant hunger for excellence, I am focused on building a meaningful career in the tech industry through continuous learning, thoughtful problem-solving, and innovation. I approach every project with intention, discipline, and a commitment to delivering high-quality results.

I am proficient in HTML, CSS, JavaScript, PHP, Kotlin, C#, .NET WinForms, ASP.NET, UX/UI design, SQL Server, MongoDB, Node.js, Express.js, Tailwind CSS, React, along with project management and IT support. I bring both strong technical capabilities and a leadership mindset to every project I work on.

With a strong ability to learn quickly, I adapt efficiently to new technologies and evolving business requirements. I am eager to grow both personally and professionally, collaborate within cross-functional teams, mentor peers when needed, and contribute to solving complex challenges while driving innovation-particularly through the responsible use of AI.

My passion for problem-solving fuels my interest in artificial intelligence and UX/UI design, where functionality and user experience intersect. I strive to deliver outcomes that create more value than expected. With 450+ GitHub commits, my projects reflect my technical skills, creativity, and unwavering commitment to continuous learning and long-term growth.

EDUCATION

Diploma In Software Development
Bow Valley College | Calgary, Alberta
2025-2026

Expected Graduation: May, 2026.

Current GPA: 3.8

Enthusiastic and results-driven Software Development student at Bow Valley College, passionate about turning ideas into impactful digital experiences. I'm building a strong foundation across modern web and software technologies, with a focus on problem-solving, teamwork, and user-centric design. Driven by curiosity and creativity, I'm eager to learn, grow, and contribute to meaningful, real-world projects.
